**Brief Explanation** (This will be copied into the description in the Change Control Summary Spreadsheet):

Add 2 reject codes for the 824 transaction – ABN for duplicate information and DDM for invalid dates

**Detailed Explanation** (Exactly what change is required? To which Illinois CPWG Standards? Why?):

These codes are used in other jurisdictions like EDEWG. There are no codes in the current CPWG 824 to specify the following situations:

A duplicate 810 original or 810 cancel or 810 reissue sent from the supplier for the same bill period. Propose: ABN (Duplicate Request Received).

Since ComEd will validate that the dates on the 810 match the dates from the 867, we need a way to reject the 810 if the dates do not match. Propose: DDM (Dates Do Not Match).
