

ACHIEVING BALANCE

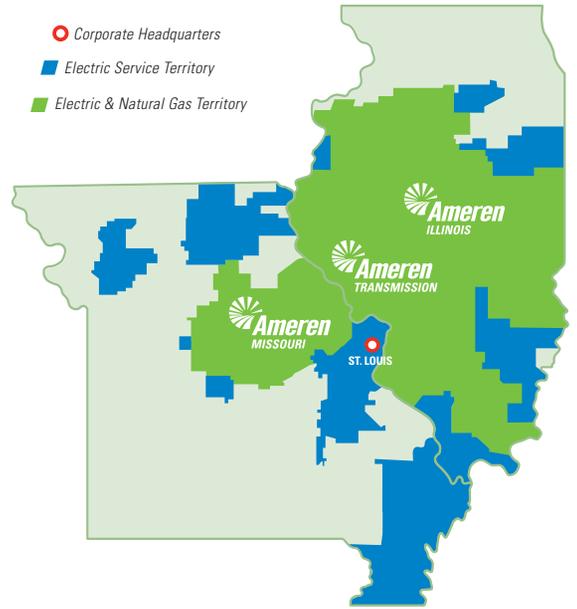

Highlights from Ameren's 2018 Corporate Social Responsibility Report*

Ameren's mission, *To Power the Quality of Life*, is at the heart of everything we do. Safe, reliable, affordable and cleaner energy is critical to the well-being and security of our customers, communities and country.

For decades, Ameren has recognized the importance of being a strong corporate citizen. Our active engagement and investments in the communities we serve, including extensive volunteerism by our 8,600 co-workers, help us deliver superior value to our customers and shareholders, and make a positive contribution to society.

Our Corporate Social Responsibility Report describes the actions we are taking to improve the environment and the communities we serve. As you will see, our actions are consistent with one of Ameren's core values—stewardship—to leave it better.

*The general reporting period is inclusive up to Dec. 31, 2017.

CARBON REDUCTION GOALS

WE ARE MAKING THE TRANSITION TO CLEANER ENERGY IN AN AFFORDABLE MANNER FOR OUR CUSTOMERS.

Our plan includes significant investments in new wind and solar generation and continued funding of robust energy efficiency programs that save customers money. In addition, our plan includes an 80% reduction in carbon emissions by 2050.

REDUCING EMISSIONS

CO₂*
EMISSIONS
