# WHAT TO KNOW ABOUT PEAK TIME SAVINGS

The \$0\* Nest Thermostat offer requires enrollment in the Peak Time Savings program. During the summer, the program will occasionally run an event that manages your cooling schedule to reduce the runtime of your HVAC system when demand for energy is highest. To ensure your comfort, we precool your home in advance of the event when energy demand is low. You're always in control of your thermostat! If at any time your home feels too hot, simply adjust your thermostat.

Get your Nest Thermostat today at [AmerenMissouri.com/NestSavings](https://AmerenMissouri.com/NestSavings).
