

SAVE MONEY AND ENERGY

Energy efficiency helps customers manage their energy use and save money. Ameren Missouri offers a variety of rebates for energy-saving products. Learn more at **AmerenMissouriSavings.com**.

Here are some ways to save energy and money now:

Replace your five most frequently used light fixtures or bulbs with ENERGY STAR® certified bulbs and you can save \$75 per year.

Help keep your home cool in the summer by closing your shades or blinds during the day. This can lead to your house being 10 to 15 degrees cooler.

Keep your thermostat at 78° in the summer and 68° in the winter. The lower the temperature difference between inside and outside your house, the less energy you will consume.

In the summer, use appliances that generate heat during the early morning or evening hours when it's cooler.
