<td>None Observed</td>
<td>None Observed</td>
</tr>
</tbody>
</table>

The 2015 Annual Inspection included a review of available information regarding the status and condition of the CCR unit, including, but not limited to, files available in the operating record in general accordance with 257.83(b)(i).

Minor maintenance items (e.g. animal burrows, ruts, etc.) associated with routine upkeep observed during the 2015 Annual Inspection, presently do not impact the structural integrity of the embankment. Ameren plans to address these items in a timely manner through Ameren’s work control process.

Date of Previous Annual Inspection: 11/21/2014

Date of Previous Periodic Inspection: Not Applicable

Description of Emergency (EC) or Immediate Maintenance (IM) conditions observed since the last annual inspection:
None

Describe any action taken to restore or improve safety and integrity of impounding structure:
An area on the north side of the pond is being graded to create positive drainage and remove a ponding area.

Describe any modifications to the geometry of the impounding structure since the previous annual inspection:
None

Describe any modifications to the operation of the impounding structure since the previous annual inspection:
None

List the approximate remaining storage capacity of the impounding structure:
110,000 CY

List the approximate maximum, minimum and present depth and elevation of the impounded water since the previous annual inspection:
There are no records of impounded water levels within the last year. The present elevation is estimated at about 410.5 feet, and the depth was estimated at 6.5 feet.

List the approximate maximum, minimum and present depth and elevation of the impounded CCR since the previous annual inspection:
There are no records of impounded CCR depth or elevation within the last year. Present Depth: Max - 10 ft Min - 4 ft   Present Elevation: Max 410.5 ft Min 404 ft

Approximate volume of impounded water and CCR at the time of the inspection:
430,800 CY

Describe any changes to the downstream watershed:
None
