

THE MARK TWAIN MEMO

The Mark Twain Transmission Project Newsletter

September/October 2019

Construction Continues During Hunting Season

Work continues along the Mark Twain Transmission Project corridor with the removal of existing wood structures, installation of foundations, setting of new structures, wire-stringing and restoration work.

Keep in mind that Project work will continue throughout Missouri's various hunting seasons. Our goal is to maintain safety for both hunters and our construction team.

Thank you for helping us make safety a top priority. Please contact us at your convenience if you have any questions or concerns about the project, construction or restoration efforts.
