

## Illinois Distribution Poles Tagging Information

### “Reject Poles”, P1 or P2, Tagging Illustration

**This tag is used for Priority 1 reject poles; red ribbon is also acceptable and wraps around pole twice to avoid fading. This pole will have a job code of RELIP1; once verified that it is a foreign owned pole, it will need to be changed to a RELIJ1.**

**This tag is used for Priority 2 reject poles; red ribbon is also acceptable and wraps around pole twice to avoid fading. This pole will have a job code of RELIP2; once verified that it is a foreign owned pole, it will need to be changed to a RELIJ2.**

## “Restorable” or “Priority Restorable” Tagging Illustration

**This tag is used for Priority Restorable Reject Poles; wrap ribbon twice around pole to avoid fading (2 pieces of steel). This pole will have a job code of RELIP5; once verified that it is a foreign owned pole, it will need to be changed to a RELIJ5.**

**This tag is used for Restorable Poles; wrap ribbon around pole twice to avoid fading (1 piece of steel). This pole will have a job code of RELIP6; once verified that it is a foreign owned pole, it will need to be changed to a RELIJ6.**
