Welding, Torch Cutting & Hot Work Pre-Task Plan Card

Safety Priority:	
Date:	Shift:
Project:	Project No
Foreman's Name (Print):	
Task & Location:	
Areas to Identify Da	ily (Check all that apply)
O Combustible materials re	emoved from the work area (35 ft radius)
O Combustible materials co	1
O Fire extinguisher at work	
÷	ork and 30 minutes after stopping work
O Portable fire resistant scr	eens
	ends, off-fall pieces, slag, etc.
e	entified/removed from area to be heated
6.	, materials to be heated, etc. available
O Atmosphere does NOT c liquids, or dusts	ontain reactive or flammable gases, vapors,

O Coordination of work with other trades

O Welding equipment properly installed & grounded

O Welding leads inspected and in good condition

O Torch hoses/gauges in good condition/connections tightened

O Back flash protectors installed at torch

O Oxygen/fuel cylinder storage separated by 20 ft minimum

O Oxygen/fuel gas cylinders protected from hot work

O Natural ventilation adequate during hot work

O Mechanical ventilation

O Respiratory protection

O Hot work (welding, CADWELD, etc.) hazards discussed/identified

O Emergency Plan reviewed

O Hot work located in an enclosed or confined space presents special hazards; contact the Safety Director
