

Franklin County Connector Project

Legend

- Existing Substation
- Proposed Substation
- Existing 345 kV Transmission Line
- Existing 138 kV Transmission Line
- Tibbe-Gray Summit New Transmission Line Route Corridor
- Tibbe-Gray Summit Existing Ameren Distribution Route Corridor
- Tibbe-Franklin New Transmission Line Route Corridor
- Tibbe-Franklin Existing Ameren Distribution Route Corridor

The study corridor shown is a broad buffer area where the transmission line may be located. This corridor is wider than the eventual footprint to provide flexibility in the siting process. The final transmission line alignment will be selected within this area.

This map is for informational purposes only and depicts the general location of the proposed route for the transmission line. It is not intended to be used for legal, engineering, or surveying purposes, and does not represent a final determination by Ameren Missouri as to route selection. The information may be subject to change, and Ameren Missouri does not guarantee the accuracy of the data shown.
