**2027 Scheduled Meter Read Dates**

The scheduled meter read dates in this table are applicable to Ameren Illinois. Bill groups are labeled 1 through 21 in the left-most column. The remaining columns show the scheduled meter read dates associated with each bill group.

Note that an on-cycle enrollment can occur anytime within the four-day Ameren billing window. The billing window extends from two business days prior to the scheduled meter read date to one business day after the scheduled meter read date. Off-cycle enrollments occur as of the end of the day of the date requested (i.e. 23:59:59). For more information on how enrollment effective dates and times are determined, please see the Retail Electric Supplier FAQs.

Also note that Ameren does not process supplier-initiated enrollments, drops, or changes on Martin Luther King, Jr. Day (01-18-27), Presidents' Day (02-15-27) and Good Friday (03-26-27).
