Re: 0190100008--Champaign County  
Champaign/IP Town Gas  
Site Remediation Program/Technical Reports

Dear Mr. Martin:

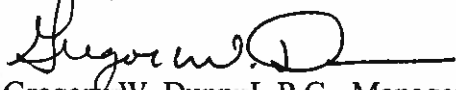

The Illinois Environmental Protection Agency ("Illinois EPA") has completed review of the *Groundwater Monitoring Update – Quarter 2 and Quarter 3, 2010 Sampling Events Champaign Former MGP Site, Champaign, Illinois* ("Groundwater Update"). The Groundwater Update, dated October 18, 2010, was received by the Illinois EPA on October 25, 2010 (Log No. 10-49194).

The Illinois EPA approves of the Groundwater Update and concurs quarterly sampling of the monitoring wells for total cyanide, benzene, toluene, ethylbenzene, total xylenes and polynuclear aromatic hydrocarbons should continue. Lead and copper can be removed from the sampling list. At this time, no additional groundwater monitoring wells are required to define the extent of contamination from the former manufactured gas plant facility located at 308 North Fifth Street. Also, please notify the Illinois EPA at least two weeks prior to all future quarterly monitoring well sampling events.

All future submittals to the Illinois EPA concerning the Illinois Power Town Gas site in Champaign should include one original and two copies of each document. If you have

any questions, please feel free to contact me at above telephone number, address or e-mail me at [Greg.Dunn@illinois.gov](mailto:Greg.Dunn@illinois.gov).

Sincerely,

Gregory W. Dunn, L.P.G., Manager
