## LED LIGHTING

Energy-efficient LEDs reduce electricity use by as much as 80% and can save more than \$70 in energy costs over the lifetime of the bulb.

## ADVANCED POWER STRIPS

An advanced power strip can save up to \$100 each year in energy costs by shutting the power off completely to plugged-in devices that are turned off.

## SMART THERMOSTATS

Switching to a smart thermostat allows you to better manage energy use and can save you up to \$180 per year on heating and cooling costs.

## AND MORE

The business customer Online Store works like any other e-commerce site — it's easy to navigate, there's no application, and always FREE shipping.
