Maximize Your Summer Savings

Small changes can add up to make a big impact on your summer savings. Try these easy cost-effective tips to be more energy-efficient as temperatures start to heat up.

- Swap your home's traditional thermostat to a smart thermostat for as low as \$5 from our Residential Online Marketplace.
- Keep the sun out of your home by utilizing window coverings to help keep the temperature inside lower.
- Turn off the AC on cooler days and utilize fans to lower energy use.
