

TRANSCRIPT OF ISAAC TURNER INTERVIEW

Isaac Turner
Laborers' Local 100

The union sent me out here, and that's how I ended up working out here working in my own neighborhood, so and I grew up here.

Well, I feel good working on a project in my local community because I always serve my community. I was the fire chief out in the community, in the town next over for 14 years before I moved on to get into construction.

I'm glad it's brand new because in this area we always get left behind, so to start off with something new in this area that we've never seen, it's an experience.
