

# DOWNSTATE CLEAN ENERGY AFFORDABILITY ACT

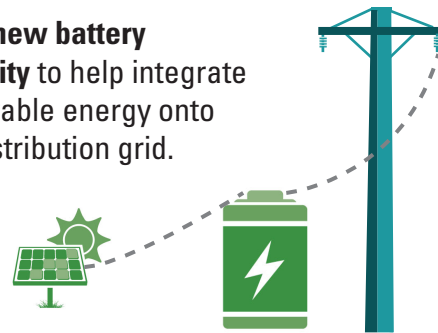

- Accelerates state's progress toward 100% clean energy
- Maintains transparency, customer protections and safeguards
- Makes state procurements of renewable energy more efficient; lowers cost to customers
- Benefits central and southern Illinois communities

**Ameren Illinois will increase production of affordable renewable energy for downstate customers.**

**Builds local solar facilities** and connects the power to nearby Ameren Illinois energy distribution infrastructure.

**Adds new battery capacity** to help integrate renewable energy onto the distribution grid.

**Jump starts the electric vehicle market** by expanding the network of public charging stations and providing incentives for EV purchases and residential charging.

**TRUSTED UNION PARTNER  
WITH A RECORD OF SUCCESS**

CREATED  
**1,400**  
direct and contractor  
jobs with top wages

GENERATED  
**\$1.7B**  
in economic impact

SAVED  
**\$45M**  
per year on  
average for customers

SPENT  
**\$1.47B**  
with diverse suppliers

Results since the Energy Infrastructure Modernization Act (EIMA) was passed in 2011
