

Ameren Illinois Smart Thermostat Rebates

Overview

Ameren Illinois is committed to helping customers find ways to improve comfort, manage their energy usage, and reduce costs. For safety reasons, families are spending more time at home, and we want to help them make their home more comfortable and reduce energy costs. That's why we're excited to offer the benefits of smart thermostat technology to our residential customers at little-to-no cost.

Easy to use and simple to install, smart thermostats can help customers save up to 15 percent on their heating and cooling bills each year, depending on usage. In addition to saving money, smart thermostats are a great tool for customers to better manage energy usage and costs. The devices enable customers to adjust settings on the go via smartphone apps. Additionally, many smart thermostat models can sense when the homeowner and/or residents are away from home and automatically modify the temperature, further reducing energy usage.

What are a customer's options for getting a low-to-no cost smart thermostat?

- **Online Marketplace**
Our Online Marketplace makes it easy to shop for a variety of smart thermostats from the convenience of your home. You pick the thermostat you like best, and we'll ship it to you for free for a limited time.
- **Smart Savers Initiative**
Customers in qualifying communities may be eligible for a **free** ecobee3 lite or Google Nest Thermostat E. These communities include Peoria, Pekin, Champaign, Decatur, Collinsville, Belleville and more.
- You can also learn more at [AmerenIllinoisSavings.com/Smart](https://www.AmerenIllinoisSavings.com/Smart)

How can a customer save energy with their smart thermostat?

- By using the built-in, energy-saving settings of their device
- Allowing the unit to learn their preferences and schedule
- Remotely managing their smart thermostat using a mobile device

What types of smart thermostats are available?

- Ameren Illinois offers rebates on ENERGY STAR® certified smart thermostats. These include a wide range of brands such as Google Nest, ecobee, Honeywell, Emerson and more!

How is Ameren Illinois able to offer smart thermostats for low-to-no cost?

- At Ameren Illinois, we believe that it should be easy to be comfortable at home. We know the value an energy efficient home brings to our customers. It is one of the many ways that we are able to help customers manage energy usage and costs while staying comfortable, and using minimal effort.
