

ELECTRIC VEHICLE (EV) CHARGING INCENTIVE PROGRAM

Providing Value for Business Customers

Ameren Missouri is offering business customers incentives for installing EV charging.

Program details include:

- Maximum incentive is up to 50% of total project cost
- Open to all Ameren Missouri business customers
- The project must be pre-approved prior to construction
- Total incentive allowed for affiliated businesses of \$500,000
- Incentive of \$5,000 per Level 2 port (40amp max)
- Incentive of \$20,000 per DCFC port (50kW nominal max)

Benefits

Installing EV charging stations can provide an important benefit to your employees, customers, and community while helping establish your company as a leader in sustainability and innovation. Benefits can include the following:

Workplace

- Attract and retain top talent
- Increase employee satisfaction and productivity

Multi-Family Apartment Buildings

- Create an advantage over your competitors
- Attract and retain occupants and potentially increase rent

Public (Retail/Mixed-Use)

- Attract and retain customers
- Create an advantage over your competitors

Charging Type

Level 2 Chargers

Charge rates of roughly 25 miles of range per hour.

Recommended for:

Workplace/ Business

Government Facilities

Multi-Family Apartment Buildings

DC Fast Charger (DCFC)

Up to an 80% charge in 30 to 45 minutes.

Recommended for:
