| Air Sealing – Minimum 0.5 Air Changes per Minute (ACH) Reduction | \$800 |
| Thermostat | |
| Smart Thermostat (Gas) ³ | \$25** |
| Food Service Measures | |
| Steam Trap Replacement – Replacing failing units – Limit 25 Per Account | \$50 |
| Double Oven, Rack – Limit Two Per Account | \$2,600 |
| Steam Cookers 5 Pan – Limit Two Per Account | \$1,800 |
| Steam Cookers 6 Pan – Limit Two Per Account | \$1,800 |
| Natural Gas Large Vat Fryer – 50% Heavy Load Cooking Energy Efficiency – Limit One Per Account | \$900 |

¹ Per system, limit two per customer, per year.

² Per system, limit 10 per customer, per year.

³ Per unit, limit 10 per customer, per year.

* Some restrictions may apply. Visit AmerenMissouri.com/naturalgas for full program details.

** Or 50% of the purchase price, whichever is less.

† Ameren Missouri does not promote fuel switching or load building. The intent of these rebates is not to incentivize customers to use a different fuel source but to provide a portion of the cost for a more efficient unit once a fuel source has been chosen.

General Eligibility and Application Information

- The program offers rebates for a portion of the cost of purchasing and installing high energy efficiency measures.
- To qualify, you must be an Ameren Missouri Natural Gas customer.
- Installations of measures completed as part of a new construction project are not eligible for rebates through this program.
- Submit your rebate application online at <https://amgas.programprocessing.com> or visit AmerenMissouri.com/naturalgas to print and complete the appropriate September 1, 2021–February 28, 2022 rebate form.
- Additional requirements apply to audit improvement measures:
 - Rebates are available for the purchase and installation of specific gas-efficient equipment and building shell measures. These rebates are available for measures installed upon the recommendation of a Qualified Auditor performing a comprehensive energy audit at the site. Measures installed are eligible for only one rebate through the Ameren Missouri Natural Gas efficiency programs.
 - A Qualified Auditor is defined as a contractor trained in natural gas equipment utilization systems and commercial and/or residential structures as an integrated whole building system through a nationally recognized training, certification and accreditation organization such as the Building Performance Institute (BPI) and Residential Energy Services Network (RESNET®).
 - If applying for a ceiling or wall insulation rebate, you cannot also apply for an audit improvement rebate for insulation. You may only apply for one.
- Depending upon the measure installed, you will need to submit some or all of the following documentation along with your online or paper rebate application:
 - Your most recent Ameren Missouri Natural Gas bill
 - All applicable invoices and/or receipts
 - Proof of cost of associated labor
 - Signature verification from your installer/contractor
- Rebate checks will be mailed approximately 6–8 weeks following receipt of the complete rebate packet.
- If you have questions about Ameren Missouri's Natural Gas rebates, please call 1.877.215.5752.
